The mar-ket showed a tendency quite late in the day, after the London offerings had been absorbed, to rally strongly, on a report that the cable communication had been established with Manila and with Commodore Dewey. The capture of the steamer Lafayette under the French flag assumed growing importance in the eyes of traders during the bast hour and induced seiling to realize, and the dealing of shorts by bears, which carried prices to the lowest of the day at the close, when the selling \$1.304; Sept. \$1.30 movement was still actively in force.
